School Report, 1913-14

To the Citizens of Woolwich:—

In compliance with School Laws, the following report of the schools for the year 1913 is respectfully submitted.

Our schools, during the past year, have been well conducted, and the children, under the care and faithfulness of good teachers, have shown excellent results. One of the worst defects in our schools is in reading, only a few good readers are to be found in any school.

The flag does not receive the honor that belongs to it in some of the schools; the hoisting arrangements get out of repair, and the flag is put in the closet, or draped in the schoolroom.

Each school has one, but nearly all are in poor condition.

The receipts and expenditures are as follows:—

Report of the Directors of the People's Ferry Co.

Bath, Maine, February 1, 1914.

To the Honorable Selectmen of the Town of Woolwich.

GENTLEMEN :—The Directors of the People's Ferry Company herewith submit their report for the year ending January 31, 1914.

We have been obliged to make a number of costly repairs and alterations, which were found absolutely necessary.

We have built a new bridge, remodeled and enlarged the pilot house and installed new steering wheels of a larger size than those formerly in use.

The engines have been taken down, thoroughly overhauled, cylinders bored and other parts repaired and adjusted.

The boat has been painted throughout. Repairs have also been made on both slips. By order of the inspectors a new life boat has been purchased.

By means of two thousand (\$2000) dollars furnished by the State for the purpose we have been enabled to run the boat until midnight during the months of June, July, August and September, thus each day giving an eighteen hour service which we think has been appreciated by the public.

For the purpose of making repairs the boat was laid off for two weeks in April and five days in November.

The unavoidable sinking of the Bath slip during the busy period of August and again in December, with the very heavy expense of raising and loss of revenue while the boat was out of commission, emphasizes the necessity of a differ-

ent type of slip than that now in use and we recommend that steps be speedily taken to effect such change. .

The accounts of the Treasurer have been audited and found correct.
